**\*\*\*\*\*COPY and PASTE this script or adapt it for your personal thoughts for your written testimony and phone calls to legislators:**

**Please vote no on HB1381.**

\* It makes our elections less secure by replacing manual audits with machine "vote validation" and "recounts" with "reviews" of digital ballots (images).

\* It makes our elections less secure by reducing transparency.

\* It fails to allow hand counting of ballots as proclaimed by our President and We the People.

\* It fails to prevent non-citizens from registering to vote or systematically removing them as ordered by our President and We the People declare.

\* It fails to protect vote-by-mail ballots and limit their use to those who cannot physically go to the polls as our President and We the People declare as imperative.

\* It fails to update our laws to ensure the Enterprise Class technologies now used in our election process are secure.
