

Honorable chairwoman, Linda Chaney , and distinguished members of this committee. Thank you for your attention.

It is the duty of the citizens to evaluate the performance of their elected officials

today as citizens of the state of Florida, we are going to evaluate your decision to favor or oppose this election bill.

How will you score?

What will be your legacy?

Who will you respect with your decision?

Will you align with President Trump?

Will you align with the mandate that he was given by Floridians to implement election integrity?

This bill and these amendment DO NOT GO FAR ENOUGH

This bill in its previous form prior to 5 PM yesterday and these two amendments newly presented after closing hours do not align with Trump's executive order, nor do they align with the will of we the people

Maybe they align with lobbyists like the clear ballot group, TECO energy, trulieve or other lobbyists who have recently visited you about this bill?

What side will you choose today? President Trump and We the people or lobbyists and special interests who will benefit from the passage passing of this bill.

I implore you to vote NO.

You have been asked to incorporate ideas from HB 1203 and HB 831 two bills sitting here in this committee being IGNORED. You have had volunteers from all over this state imploring you for MONTHS to notice these bills. We have met with you in your offices, provided many documents that compared your bills to those I mentioned and to trumps agenda.

We have provided proof that elections are not secure. Glaring vulnerabilities were made clear to you during secretary of state Byrd's presentation to the house subcommittee in December 2023.

grassroots volunteers have sacrificed their time and resources coming to Tallahassee over and over again to attempt to work with you for election reform

And security and meeting with you for several years, why do you ignore us / them?

Voting yes, on this bill and voting. Yes, on these amendments should cost you your job.

Do not pass it

Presidents Trump and citizens for election integrity from all over the state and nation are watching you

Will you lead? Will you be statesmen and women?

Will you lead, representative Chaney? People in your home district in pinellas county are very angry. How do you ignore the excellent legislation proposed by Representative Jacques from your own delegation?

We expect you to do the right thing. We strongly request that you schedule his bill to your next agenda, as well as BARNABY's HB1203

Today, by your decision, you all will show your allegiance to presidents trump, we the people of florida, and election integrity

OR

you will

Show your loyalty to the lobbyists and special interests groups

We are watching.
